JAVASCRIPT COURSE

PART 8 - 13.11.2017.

ICT HUB

IN THIS CLASS

Practice all what we've learned

+

how to speed up our work

+

cookies

BEFORE WE BEGIN

Presentations and homework:

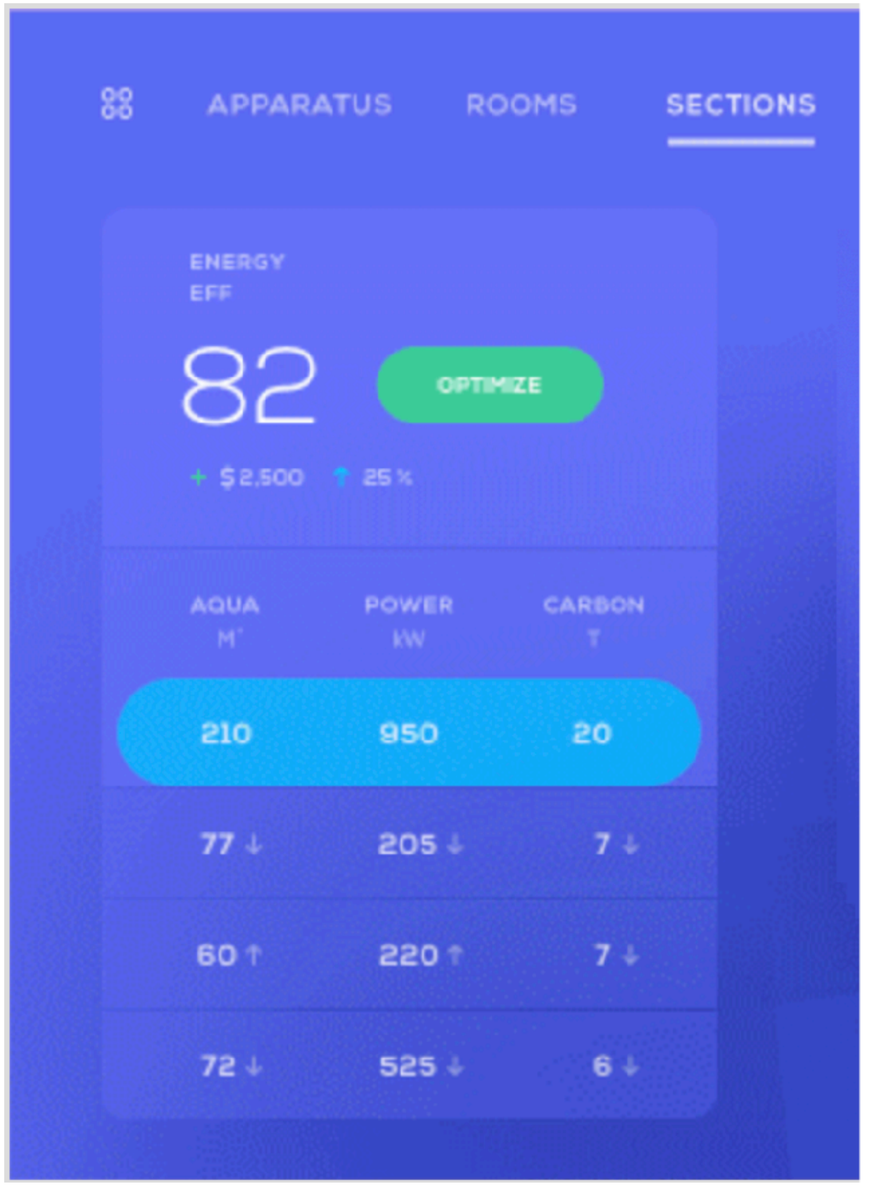
https://github.com/JSBelgrade/course-2017

PREVIOUS HOMEWORK

https://dribbble.com/shots/3708155-Home-Scanner

By Cosmin Capitanu

1. Attendees EDIT + DELETE
2. HTTP requests for EDIT + DELETE + GET ALL
3. HTTP request for ADD attendee



LET'S CHECK THE HOMEWORK TOGETHER

SMALL RECAP

Asynchronous JavaScript

setTimeout, setInterval

SPEEDING UP

jQuery

```
$(‘#id’)
$(‘.class’)
```

```
$.ajax({
  type: ‘POST’,
  url: url,
  data: data,
  success: success,
  dataType: dataType
});
```

EXERCISE #1:

REPLACE YOUR CURRENT REQUESTS WITH jQuery

~20 mins

HOMEWORK

Each part is a difficulty level

PART 1:

Replace all your requests with Jquery AJAX

PART 2:

Implement a Register form
with first name, last name, email, password

POST /register

with validation!

PART 3:

Implement a Login request form
with email, password

POST /login
on success open the / page

if the user puts wrong credentials, show an error message

THE END

OF PART EIGHT
